

NEYERS VINEYARDS

2012 Mourvedre Rossi Ranch Sonoma Valley

Otellini has only 4 acres planted to Mourvèdre, but they might be part of the most exciting red wine vineyard in northern California. Fewer than 70 acres of Mourvèdre are planted in Napa and Sonoma counties combined. There is plenty to love about this wine, from its luxurious dark purple color to the exotic aroma of peat and lavender. Finding them some of the most satisfying wines in my cellar, I regularly drink Mourvèdre from Spain and France. Now, of course, I can enjoy one from Neyers Vineyards.
